*Rotating Equipment Specialists*

AN OVATION HOLDINGS COMPANY

## PUMPS

Conhagen offers comprehensive pump repair and maintenance services to keep your operations running efficiently. We specialize in overhauls, rebuilds, and upgrades for a wide range of pump types, ensuring peak performance and reliability. Our expert technicians bring decades of experience to troubleshoot and resolve any pump issue, reducing downtime and extending equipment life.

- Horizontal Split-Case Pumps
- Vertical Split-Case (Barrel) Pumps
- Multi-Stage Pumps
- Vertical & Positive Displacement Pumps

## COMPRESSORS

Conhagen provides top-tier service for centrifugal, reciprocating, and rotary compressors. Our skilled team performs everything from routine maintenance to complete overhauls. We ensure your compressors deliver consistent, reliable performance by reducing mechanical wear and extending their operational life. Conhagen's precision engineering ensures that your equipment operates efficiently with minimal downtime.

## TURBINES

Our turbine services are designed to maximize efficiency and longevity. Conhagen is an industry leader in turbine repair, overhaul, and maintenance. Whether it's routine inspections, full-scale rebuilds, or emergency repairs, we ensure your turbines operate at optimal performance. With advanced diagnostics and skilled craftsmanship, we deliver solutions that keep your turbines running efficiently.

## FIELD SERVICES

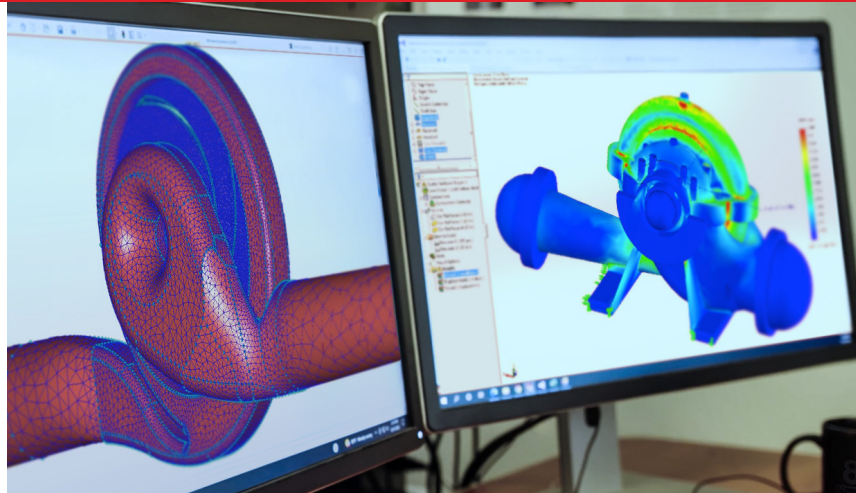

Our field services team delivers onsite expertise for emergency repairs, routine maintenance, and troubleshooting. Equipped with state-of-the-art tools and industry knowledge, Conhagen's technicians respond quickly to minimize downtime and keep your equipment running smoothly. We bring the shop to you, offering convenient, comprehensive services wherever and whenever you need them.

- Field Pump Overhauls
- Precision Alignment
- Foundation Integrity Assessments
- Field Machining
- Vibration Measurements

## GEAR BOXES

Our gearbox services focus on repair, rebuilding, and custom upgrades. Conhagen's team has the expertise to handle high-performance gearboxes across a variety of industries. We employ advanced diagnostics and precision machining to bring your gearboxes back to peak performance, extending their service life and boosting overall equipment efficiency.

## ENGINEERING

At Conhagen, our engineering team is committed to providing innovative, cost-effective solutions tailored to your unique needs. From reverse engineering to custom modifications and upgrades, we focus on improving the performance, reliability, and efficiency of your equipment.

Through Conhagen's Mechanical Engineering, Design, and Solutions Group (MEDS), clients gain direct access to advice on re-rates, upgrades, retrofits, material selection, and on-site pump system analysis.

- Reverse Engineering
- CAD Modeling of Pumps / Stations
- CFD Analysis
- Vibration Analysis & Rotordynamic Analysis
- Drop-in Replacement Pumps & Rerates
- Piping Strain Assessments
- Customer Equipment Operation Training
